antifect® extra

Glutaraldehyde-based concentrate for disinfecting and cleaning medical devices and surfaces.

PRAXISDIENST
Medical Supplies since 1953
Order here!

Our Plus

- broad spectrum of activity (virucidal, tuberculocidal, sporicidal)
- good material compatibility
- glutaraldehyde based

Application areas

Due to its broad spectrum activity, antifect® extra is suitable for use in critical hospital areas that require more than a basic disinfection.

Microbiological efficacy

Efficacy	Concentration	Contact time
bactericidal *EN13697, in accordance with VAH - dirty conditions*	0.5 % (5 ml/l)	30 min.
Acinetobacter baumannii *EN13727 - clean conditions*	0.25 % (2.5 ml/l)	5 min.
tuberculocidal *in accordance with VAH - dirty conditions*	2.5 % (25 ml/l)	240 min.
yeasticidal *EN13697, in accordance with VAH - dirty conditions*	0.5 % (5 ml/l)	30 min.
virucidal against enveloped viruses *in accordance with DVV (German Registered Association for Combating Viral Diseases)//RKI Guideline - dirty conditions*	0.25 % (2.5 ml/l)	1 min.
virucidal *EN14476 - clean conditions*	0.5 % (5 ml/l)	15 min.
Adenovirus *in accordance with DVV (German Registered Association for Combating Viral Diseases)//RKI Guideline - dirty conditions*	0.25 % (2.5 ml/l)	5 min.
Norovirus *EN14476 - clean conditions*	0.5 % (5 ml/l)	15 min.
Polyoma SV40 *in accordance with DVV (German Registered Association for Combating Viral Diseases)//RKI Guideline - dirty conditions*	0.5 % (5 ml/l)	60 min.
Rotavirus *EN14476 - clean conditions*	0.25 % (2.5 ml/l)	5 min.
sporicidal *EN13697 - clean conditions*	2 % (20 ml/l)	240 min.

Certificates

- IHO listed
- VAH certificate

EURO NORM CE 0297

antifect® extra

Product data

Labelling:
100 g concentrate contains the following active substances: 9.8 g Glutaral, 5.0 g Alkyl (C12-16) dimethylbenzyl ammonium chloride (ADBAC/BKC (C12-C16)), 5.0 g Didecyldimethylammonium chloride
Labelling according to Regulation (EC) No. 648/2004:
5 - 15 % non-ionic surfactants, perfumes

Chemical-physical data

Color	green
Density	ca. 1,00 g/cm3 / 20 °C
Flash point	35 °C / Method : DIN 51755 Part 1
Form	liquid
pH	ca. 4,7 / 20 °C / concentrate
Viscosity, dynamic	ca. 11 mPa*s / 20 °C / Method : ISO 3219

Special advice

Use disinfectants safely. Always read the label and product information before use.
Storage temperature should not be higher than 25°C. Depending on the type of floor, additional care may be useful. The product is suitable for disinfecting surfaces and medical devices. As a long-established product, it is used in all hospital areas and can be combined with schülke s&m cleaning additive and schülke s&m care additive. As this product contains cationic active ingredients, the combination with cleaning agents, cleaning additives or wipe care products can affect the microbiological effectiveness and cause problems during application. schülke should therefore be consulted before attempting mixing the products. Use only in well-ventilated areas. Avoid formation of aerosols. Wearing protective gloves is advised. For further information on safe handling and storage conditions, please refer to the safety data sheet. The shelf-life of the opened container can be found on the packaging. For the application of antifect® extra in higher concentrations, we recommend wearing a protective respiratory mask (filter type A). A combination filter A-P2 should be used when spraying.

Instructions for use

Prepare the working solution in the desired concentration. Wet clean surfaces, e.g. floors and other wipeable surfaces. Ensure that all visible dirt is removed before disinfection. Ensure complete wetting and maintain the surface moist during the entire exposure time. Allows dosing via centralized and decentralized dosing devices. schülke dosing aids can be used for dosing. After completing the work, dispose of the working solution and clean the equipment thoroughly with water. Allows dosing via centralized and decentralized dosing devices. For professional use only. Any serious incidents related to the product are to be reported to the manufacturer and competent authority. Not for final disinfection of semicritical and critical medical devices!

Information for order

Item	Delivery form	Item no.
antifect® extra 2 l bottle	5/Carton	on request
antifect® extra 5 l	1/Canister	on request
antifect® extra 20 l	1/Canister	on request

These products are not available in every country. For more information please contact our local subsidiary or distributor.

Application aids

Application aids	Item no.
Can key for 5 + 10 l	135810
Decanter funnel	117901
Key for 5/10 lt can (Draak)	135801
measuring cup 500 ml	136101
measuring cup 50 ml	136102
Opener all-in-one (1l eurobottle/can/container)	70000804
schülke dosing feeder 20 l / 25 l (20ml / stroke)	182501
schülke dosing feeder 5 l / 10 l (20ml / stroke)	117101
schülke tap for 5 l / 10 l can	135501
tap for 20/ 25 lt can	126101
